

RESEARCH INTERESTS

My research interests focus on graph-based modeling, social network analysis, and graph representation techniques, particularly in understanding the structure and dynamics of complex networks. I am also interested in exploring related topics in data-driven applications and networked information systems.

EDUCATION

- **Hainan University** Sep. 2021 - Jun. 2025 (expected)
B.E. in Artificial Intelligence School of Information and Communication Engineering GPA: 3.84/4.00, Rank: 2/90

RESEARCH EXPERIENCE

- **Student Researcher** Feb. 2023 - Oct. 2024
Hainan University, Haikou, Hainan
◦ **Supervisor:** Siling Feng
◦ **Project:** Dynamic Recommendation Method Based on Temporal Knowledge Graph
- **Research Assistant** Oct. 2023 - Mar. 2024
Hainan University, Haikou, Hainan
◦ **Mentor:** Cong lin
◦ **Project:** Intelligent Auxiliary Diagnosis Methods
- **Student Researcher** Feb. 2022 - Dec. 2022
Hainan University, Haikou, Hainan
◦ **Supervisor:** Zhenjia Chen
◦ **Project:** Sea Surface Target Detection

TEACHING EXPERIENCE

- **Teaching Assistant** Spring 2024
University of Waikato, Haikou, Hainan
◦ **Lecturers:** Imran Khaliq and Jibril Muhammad Adam
◦ **Course:** COMPX101 - Introduction to Programming
- **Teaching Assistant** Fall 2024
University of Waikato, Haikou, Hainan
◦ **Lecturers:** Imran Khaliq and Jibril Muhammad Adam
◦ **Course:** COMPX102 - Object-Oriented Programming

HONORS AND AWARDS

- **National Endeavor Fellowship** Oct. 2022, 2023, 2024
Hainan University

SKILLS

- **Programming Languages:** Python, C, C#, Java, etc.
- **Frameworks:** Pytorch, Scikit-Learn, Networkx, Pandas, OpenCV, NumPy, Matplotlib, Seaborn, Flask, etc.
- **Tools:** L^AT_EX, Git, etc.
